- Special promotion in the month of March worth 150 Euro

Allerød, Denmark – 13 March 2019:

Better Moments has added a new destination to their list of PhotoWalks: Berlin, Germany's largest city is a highlight for every photographer thanks to its mixture of modern architecture, artsy neighbourhoods and historical sights. With the city being so diverse and multicultural, there are plenty of hidden gems to discover away from the well-trodden paths, especially for those interested in street photography.

“Berlin certainly is one of the most interesting cities in terms of street and architectural photography so there was no question about including it in our portfolio. There is something for everyone - from places with historic relevance to grungy areas with colourful street art. However, the city can be quite overwhelming if you don't know your way around so a PhotoWalk is a great opportunity to go exploring with a local guide. We found two excellent photographers to work with and put together three exciting tours that will show our guests the best Berlin has to offer”, says marketing manager Laura Graf.

To kick off the spring season, Better Moments PhotoWalks wants to attract new customers with a special promotion, which is only valid in March:

Guests will receive a 64GB Extreme Pro SD card from SanDisk if they go on a PhotoWalk in any of the four destinations (Copenhagen, Paris, Sofia, Berlin). Moreover, in addition to the two friends that are already included in the price (295 Euro for a 3-hour walk), guests can bring a third friend for free and thus save another 95 Euro.

In the coming months, Better Moments PhotoWalks is planning to expand further, also beyond Europe, and is therefore encouraging professional freelance photographers to get in touch with them if they are interested in a cooperation.
